

## Welcome to Joe's Diner

Does it surprise you to know there are soybeans at a diner?

- The counter top is made of Environ, a marble-like material made with soybeans.
- The diner's menu also features foods containing soy protein, soy flour, and soy oil, which are good for you.
- The newspaper the man's reading and the diner's menu are printed with soy ink.
- There's even soy in the paint and plastic used throughout the diner.
